I am a current XM subscriber and have been extremely pleased with the service so far. I spend alot of hours on the highway driving home from school and XM radio is the only thing that keeps me company. weather and news is vitally important to me however. XM's weather channels give me a heads up on all travel weather during my long trips home. Not only would I be disappointed if I lost these channels but It would be stealing. The NAB is trying to steal a service that I have already spent 100's of dollars to recieve. This is money I cannot get back. I hope you make the right decision.
